SHAPERBUDDY ANNOUNCES TAKEOFF IN AUSTRALIA

A unique “All-In-One” Management Software System that will transform Board Manufacturing Industry

Adelaide – South Australia – January 16 2015. Shaperbuddy take-offs in Australia as the first Management Software System designed and developed for Board Manufacturing Industry after compiling the needs and wishes of Industry Leaders, Veteran Shapers and Up an Coming Board Builders.

Shaperbuddy is a revolutionary tool for the Board Manufacturing Industry that combines state-of-the-art Client Management, Production Management, Inventory, Sales, Billing (Invoicing), Stock Management, Cost Control, Email Marketing and web integrations in one specific single “all-in-one” platform, providing an integrated view of all core business processes in real-time.

It takes care of a much needed industry gap for professionalised services, helping board builders to organise and manage production efficiently, empowering to connect closely with customers, expand online presence easily and grow their business, no matter their size or status.

Shaperbuddy will be touring NSW and Gold Coast from 2 - 20 February, accepting appointments to show board builders system full potential.

About Shaperbuddy

Shaperbuddy is an all-in-one management system and global marketplace for Board Sport Manufacturing Industry developed by EMBRITIVE, a disruptive fresh company in the centre of Europe’s IT creative talent and board construction hub.

It offers extensive features to help board builders run and grow business efficiently, no matter their production focus, size or status.
